## **Transfer Local Files**

[ankitnarula1991@gmail.com](mailto:ankitnarula1991@gmail.com)

# Transfer Local Files to Windows Server

- Create Windows EC2 Machine
- Generate the password
- Create File in Local Machine
- Open Remote Desktop Connection
- Click on Show Options
- Go to Local Resources

# Transfer Local Files to Windows Server

- Click on More
- Check the Drivers
- Click on ok
- Click on Connect
- Now Copy the File & Paste the File in the EC2 Machine

# Transfer Local Files to Linux Server

- Create Linux EC2 Machine
- Generate the PPK File
- Download & Install WINSCP: [ClickHere](#)
- Enter the Host Name & User Name

Advanced

Click on Authentication

- Attach PPK File

# Transfer Local Files to Linux Server

- Click on ok
- Click on Login
- Click on Yes
- Drag and Drop the file in Linux server
- Now we can connect to Putty & Check using Linux Commands.
